

VidaLux

Is Colorful

Set 16 Million different colors in each direction easily from your smart phone.

VidaLux Is A “Moodmaker”:

At first the color and brilliance will invigorate you.

Yet, in the morning you can create a new, delicate palette of light to set the mood for the day.

For dinner or entertaining, set colorful expressive color combinations, with animations if you like.

And for the night soft gentle dim colors can be your nightlight.
