

What Does

VidaLux Projects Different Colors Of Light ...

In the UP direction for indirect ceiling light;

in the DOWN direction for lighting a dining table, pool table, worksurface or lobby/reception desk;

and in the SIDE direction for ambience and colorful accent.

VidaLux Is Smart:

Control your VidaLux from anywhere in the world.

Integrate it with most Smart Home network and applications.

The supplied Wifi Bridge connects to your network router for security, and total flexibility.

The Bridge is supplied pre-programmed with your LED light strips and controllers.

Just download the free smart phone app, find your Bridge on the network, and enjoy!
